KILLAPEDE

LOADING INSTRUCTIONS SHIFT & BREAK

THE GAME

Destroy the Killapede with your deadly laser beam. Hitting a body section splits the Killapede in two, thus there will be two heads.

The Killapede will make its way down the screen by moving left and right, dropping down a line each time it meets a mushroom or edge of the screen.

Mushrooms may be shot away by hitting them four times with your laser base.

OTHER NASTIES

Fleas will drop down the screen, leaving trails of mushrooms.

Snails will move across the top of the screen, if these are shot you will be awarded 400 points.

A spider will bounce across the screen trying to destroy mushrooms and you (if it gets the chance!)

Both the fleas and spiders may be shot for extra points.

A bonus life is awarded for every 10,000 points scored.
